Reading this volume

Preparation and review

Prepared for Volney Douglas with AI assistance in September 2026, from visual reading of the supplied scans. Each scan received an initial reading. Version 1.1 adds local OCR processing of all 193 pages containing the original 1,200 uncertainties, and applies selected image-checked corrections. OCR completion is not a complete new visual check; the item ledger records which passages were individually adjudicated. The page inventory identifies the review level. This edition has not received an independent human transcription check or repository approval. It is offered for scholarly review and correction, and does not replace the source images.

Wording and layout

Original wording, spelling, grammar, abbreviations and recoverable punctuation are retained. No silent expansion or modernization is intended. Handwritten capitalization, punctuation and word division sometimes require judgment. Superscripts are lowered to the baseline. Ordinary line wrapping is reflowed; verse lines, addresses and separate text blocks are distinguished. Underlining and decorative features are not systematically encoded. This is a direct reading transcript, not a facsimile or a fully diplomatic edition.

Uncertainty notation

Double square brackets contain editorial intervention. `[[illegible]]` means writing could not be read; an unspecified gap does not imply a word count. Adjacent unreadable spans may be combined. A stated extent, such as `[[illegible: approximately 3 words]]`, is an estimate. `[[word?]]` gives a tentative reading, including tentative phrases. `[[lost: torn edge]]` records writing missing at a damaged edge; `[[obscured: fold]]` identifies an obstruction. Original single brackets remain as written. No missing wording is supplied solely to produce a fluent sentence.

Corrections and separate blocks

`[[deleted: text]]` records readable canceled text; `[[deleted: illegible]]` records an unread cancellation. `[[inserted: text]]` records a significant insertion in its intended position. `[[margin]]` and `[/margin]]` enclose marginal writing. `[[postmark]]` and `[[postage]]` identify postal text. `[[blank]]`, `[[seal]]` and `[[sketch]]` identify useful non-textual features. A `[[separate block: description]]` marker introduces an independently positioned passage. Handwriting or cancellation may itself be uncertain.

Source order and later descriptions

Entries follow the PDFs' scan order. Where the leaves appear out of sequence, the editorial note suggests a reading order without moving the entry. Later identifying slips are transcribed separately; their names, dates and attributions are not silently substituted for manuscript readings. Duplicate scans retain separate entries. Apparent contradictions are recorded rather than reconciled.

References and corrections

A page ID such as 05-025 means source 05, PDF scan page 25, counting the cover as page 1. A block ID such as 05-025-P02 adds the second transcript paragraph or block. These are editorial locators; they

are not manuscript page numbers. Suggested citation: George Douglas Papers annotated transcription, version 1.1, 05-025-P02; corresponding source 05, scan page 25. For a correction, give that locator, the existing wording, a proposed reading, and the image or other evidence supporting it.

04-004-P02 Mr George Douglas

Dear [[Bro?]] & Cousin,

04-004-P03 By the above Caption You are informed of my Whereabouts After an absence of twenty odd months I arrived at [[illegible]] on 22d of the month Since which time I have mingled with the friends of the [[illegible]]. Truly I have had a pleasant time - The courteous manner in which I have been every where received and the kindness shown to me has been truly gratifying to me personally. I have just returned from Aunt Betties and concluded I would chat you a little while through the medium as a substitute, to an oral one.

04-004-P04 I wrote to you last Sept but have never learned the destination of my letter - [[deleted: illegible]] you did not return it, [[deleted: illegible]] if you did I did not reply [[illegible]] this one will not prove offensive to you. Since Feb 1st - I have been on detached Service the greater portion of the time - Last Feb was sent to the Ouachita river Country to gather forage for the Command. Was engaged in this business two months. [[illegible]] of my [[Solitariness?]] passed more pleasantly the first month excepted than [[illegible]] to you all "bibs", and as a matter of course, [[illegible]] pleased more than the ladies in the prettiest Looks - Smiles & kindest [[illegible]] and when the pot boiled the strongest and being not entirely [[illegible]] of the influence of the gentle fair, on some occasions I [[illegible]] their claims. And was almost persuaded (I like to have said taken unawares) [[illegible]] the "equal" in [[gentility?]] & [[illegible]] of the Young ladies of my former [[illegible]] - The brindle of my acquaintances [[illegible]] shirts [[illegible]] as they seem to have especial claims of Superiority [[illegible]].

04-004-P05 But Enough on this subject as it is hardly entitled to a place in these times of strife & Confusion - Whilst the all absorbing all engrossing theme is War War - its stern realities & consequences Which at present our Country has begun to feel the Weight of considerably.

Editorial note. Friday Jan 29th 1864 is the reading of the heading. Extensive dark photocopy interference obscures words; the social comparison in the lower half particularly needs review. The text continues in the upper upright block of scan page 5.

I joined the Command in Hopkins County the Last of Nov & Soon after was detailed to take Some prisoners to Tyler — was then detailed to deliver them at Shreveport — Was there ordered to take Some *[[illegible]]* Guns to Bonham. This *[[illegible]]* to me *[[illegible]]* thinking the *[[illegible]]* would not admit *[[illegible]]* home — we Concluded to go on to Bonham. We have not heard from *[[illegible]]* & James Since the middle of Oct. James was *[[illegible]]* Wounded *[[illegible]]* in the Chickamauga Battle. I am very anxious to know how They came off at the Chattanooga fight. 04-012-P01 The River of death

04-012-P02 Beautiful world! I've trusted long
To your gilded show, your Syren Song;
I thought the joys you gave would last
But one by one they have hurried past;
Till now the last you could give has flown,
And I stand by the River, Alone! Alone!

04-012-P03 I was merry once, and to music sweet
Kept tinkling time with dancing feet;
I crowned my hair with roses red,
But the lute is shatter'd, the roses dead;
Music and blossoms are long since gone,
And I stand by the River, Alone! Alone!

04-012-P04 And once I loved; 'twas a dream of bliss,
Could earth give more to her child than this?
Rapture so great it was almost pain,
A girdle of flowers with a silken chain;
But love like a vision of night has flown,
And I stand by the River, Alone! Alone!

04-013-P01 Then madly I quaffed the cup of fame,
And smiled when thousands lisp'd my name,
My brow was bound with a wreath of bay,
But it faded quickly and drooped away,

Leaf after leaf until all are gone,
And I stand by the River Alone! Alone!

04-013-P02 And what have I done O Christ! for thee?
Drear the visions my dim eyes see!
Have I given a cup of water cold
To a single Lamb in Thy precious fold?
Time for working is past and gone,
And I stand by the River Alone! Alone!

04-013-P03 O Christ! have mercy! The waters wild
Are sweeping away Thy erring child;
Wilt Thou not listen? O, take my hand,
And guide me through to a distant land;
All that I trusted on earth has flown,
Must I sink in the River, Alone! Alone!

04-013-P04 The River! The River! tis dark and wide,
But I see a light on the other Side!
My heart no longer is faint with fear,
For Heaven has help; my God is near!
With joyous footsteps I hasten on
No more in the River, Alone! Alone!

04-017-P02 Cousin George. I have written Several times to you but Silence has been the result. My uncertain Whereabouts perhaps have been the Cause — for I cannot think you so ungenerous as not to have Written to me Since Sept last year. I have thought my letters of last Spring may have Contained something not acceptable — if so I cannot conceive what it was — for if you are like the majority of Soldiers — your Feelings could hardly be ruffled — I will try you another Effort and if Silence is the response I may know Something is wrong in Denmark, & will call off my hounds. But as I am floating in rather a dull atmosphere I will not promise to be very interesting but trust I may for a while relieve you of the monotony of the Camps.

04-017-P03 I am home on a detail after Clothing for our Co. having reached Sat Evening. I find things moving on in this vicinity about like they did before the War began save the absence of Young men. Plenty Seems Smiling at every door — and were it not for absent ones I believe the people here would be happy. *[[illegible]]* quite warm weathering Carried on in North Carolina. As yet I have visited but Little. I have visited Waxahachie twice — a very important case being under Consideration in the Court — To wit; The murder of a Mrs Claunch by her Daughter — The case has not yet been decided but from the evidence I have heard believe she will come clear — but not in the Eyes of the people — as innocent of the offence. From Waxa on Monday I went to Red Oak Camp Ground — Camp meeting being on hand — and have remained till Tuesday — The meeting not so largely attended as in former years — Especially by the Sterner Sex — but there has been no discount on the other Side. The eating part received marked attention on my part. I indulge freely in those Substantials that keep Soul & body together — but did not Labor very hard to make myself agreeable — or to create a Contagious Sometimes

Called a “palpitation of the heart” — My observation teaches me That the germs of this malady are in an *[[illegible]]* State and only need Sunshine to bring them to bloom, Expand & Captivate —

Amongst them was a Soldier friend — who yielded to the Solicitation of an Old Gentleman who has a Daughter that has *[[illegible]]* Claims upon him — I think the meeting is Still in operation — If Shoutings are an indication of Godliness — This is Certainly the most Christian people in the range of my knowledge. 04-027-P01 Monday Morning.

04-027-P02 Dear Zella,

04-027-P03 Of course you would like to know of the meeting. While there has been no further additions, yesterday was a “big” day. According to announcement there was dinner on the ground. And such another dinner. About the finest ever spread at Sylvana. Among visitors present was White Stirman and *[[deleted: illegible]]* wife, (who sends her love to you) and Nellie Russell. They left after preaching last night for Ennis, White and family going to move right away to Marlin, where White has a job of running a “Watkins” Medicine wagon.

04-027-P04 From Oak Cliff were three carloads of people, Jeff Barclay among the number who kindly remembered you, the wife of J. C. Estes, the preacher, Bro. Stevens, mother wife and sister, Bro. Melton and family and Bro. Holsenback, and wife.

04-028-P01 These enjoyed themselves finely, and were profuse in their invitations for me to visit them when in Dallas.

04-028-P02 Mrs. Dr. Mitchell and family, and Bro. Dunn's family were out from Waxahachie. These comprise the major part of the visitors who took dinner. After dinner Mrs Howard and family came in and remained until after night preaching. She was showered with attentions by all who knew her while she was with us, and last Cliff Stanford came much to the delight of his many friends.

04-028-P03 The meeting may close tonight, and maybe tomorrow night. Bro. Dunn being something of a revivalist is blue over his work here, he is disappointed.

04-028-P04 No change to report in Lucile's condition but I expect to finish this letter at Red Oak this evening; and will give latest dates.

04-028-P05 Larkin is much worse; the disease taking a malignant form day before yesterday. I will hear from him this morning. All company has been forbidden. The prospect is most serious.

04-029-P01 We will have to hedge on expenses. The Ellis Co. cotton crop is a failure today the eleventh of August. The worms have completely destroyed all the bolls and squares, and blooms are scarcer than I ever saw — if anything is made it has to be made in the future, there is nothing now. Worms are of all sizes and this argues that they will be with us some time yet.

04-029-P02 I hope you will continue to do well, get some weight and strength and hold both. I am feeling fine, batching must agree with me; but I am not stuck on it.

04-029-P03 Am getting from two to eight eggs per day.

04-029-P04 At Kate's. I found Lucile not so well as last Sunday — She seems quite unwell, suffering considerably. Kate says: "Her stomach has gone back on her." Poor Child, she looks badly. 04-032-P02 Dear Zella, Just got your letter. I staid with Clarence & Kate Sunday night and saw you in the car window Monday morning as you passed.

04-032-P03 Came on home in the evening, and today went back for the laundry and the young lady. Had a puncture coming home and got mighty hot and dirty fixing it. Delivered the young lady at her home and in a few hundred yards returning the same wheel went down again. Had a time. Some men came along and all of us put together could not fix it, so I drove to Rockett on the rim, and with the help of Sid Farrar soon had it righted up. Came on and spent three hours with Kate. The children surely look bad. Glenn was not well, but Kate looks much better than I expected.

04-034-P02 Dear Zella —

04-034-P03 Yours written Sunday came yesterday. I am glad you did not have a bad time last week, and hope you will do better this week. I know Ed's expenses must be enormous; but be sure you do not add any to them. Our house keepers packed up their goods Saturday, and Sunday Evening loaded them on two wagons, and Monday morning pulled out for Bartlett Texas. At Waxahachie they shipped their effects, and by now are at their destination.

04-034-P04 So my prospects for baching grows brighter from day to day. Sure I live better, and my next cook must look refined. My nieces cant understand why I persist in staying at home, and there is not much use for it except I hate for the house to be unoccupied at night. 04-035-P02 Our meeting crowds are small, and the preaching not much bigger. It chafes Bro. Dunn very perceptibly, but he has a poor way of helping himself, as the job of building up a large audience is a big one. The crowds will be apt to grow later on.

04-035-P03 Word came down last night that Olaf wished to be baptized, so Bro. Duncan returned immediately to Red Oak to make preparation and Bro. Dunn and others went up after Church was over to attend to it. I have no word from them up to this writing. Now as to the old house.

I have got to tighten up my room for this winter. I noticed last winter that the cold air came in very perceptibly through the ceiling joints. There is three ways to stop this. Ceil over the old ceiling with new lumber, paper or paint the walls.

I put it up to you to fix it, as I may not get home in time to do it before cold weather.

If this is done the smell would be out by cold weather. The walls would have to have a good coat of oil first to keep the paint from peeling off. Oil, paint, and putting it on, will likely cost about fifty dollars; but you might get it done cheaper. Paper might look nicer; but you could not paper overhead with *[[inserted: out]]* ceeling under the joints, and that would make it *[[labor?]]* to prepare

Have whoever paints the front of the house, clean out the *[[deleted: gu]]* gutter in front, and this may require new screen wire to cover it again.

You will have to get Ernest to bring from the lumber *[[deleted: yard]]* yard enough lumber for the Scaffolding. Show him what you want done, and he will know what to get. All the painting on the front was done before by the long ladder pieced out at the bottom.

Do you think you can do this?

I wipe the dishes sometimes, help string the beans, shuck the roasting ears, and draw an occasional bucket of water.

The Dr. wont allow me to do any thing that would make me warm, such as pick up apples and make cider. Help is as scarce here as there, and the Dr. cant get help to pick up his apples and make cider. White folks wont work *[[inserted: or dont work]]*, and niggers are scarce. I do not know when I have seen a white man hunting work.

I am sorry you missed seeing Allie, as she could have given you an insight to things here. I surely do hope she wont have a breakdown — I fear her strength will not be equal to her task.

The Dr. has six patients now and may have another next week. Mrs. Johnson is very feeble. Cancer is killed, but the after effects of Xray are almost as bad. I am hurrying to get this off so you will get it Saturday.

Affectionately Papa.

My Dear Child.

I am feeling pretty good this morning. Most of the cancer came out, a little left, cant tell just how much. Dr said a few more treatments he thought would finish up the job.

The lump under my jaw is going away, seemingly getting a little less from treatment to treatment. No

indications of trouble there as yet. As to when I can get to come home I cant tell, nor can the Dr tell. That depends on conditions. If no further trouble comes up, and I stay until fully healed, it may be the middle of October

Now I want you to go to Mr. Ligon, get the note on The Guaranty Trust bank of Waxahachie, due the eleventh day of September, and arrange for him to collect it on that date. Dont fail in this.

Then go to Waxahachie and go to the tax collector's office, call for my tax receipt, and pay it off by check on Red Oak; then take it Farrar and Kemble attys, and leave with them. They may want

Then tell Buord Farrar to check on Red Oak for what funds he may have to have in my case as attorney.

This all being attended to write me the amount of the taxes. Write it out, dont put down figures for you cant make them with a pencil legible.

Those you put down in your letter from Dallas I do not know just what they were, had to guess, and guess work wont do in business.

As to your coming out here, of course I would be glad to have you, and be glad for you to have the trip for a change; but so far there is no need of your coming. I will be very comfortably located with Dr Bird, after Allie leaves, which will be in a few days.

Allie is making ready to go to Gunter, take charge of a Dormitory, and put the children in school. At this

Dear Father,

Your letter of August 16th came to hand a few days ago, and I was much gratified to hear from you all again. I have just been writing to sister Rebecca, and scolded a good deal with *[[her?]]* for none of you writing to me, but I see from your letter that the fault lay entirely with the mail, so I shall not send it. I am glad to hear of the good health of the Family, and it gives me some hopes that health may be enjoyed in Brushy, as well as other places. This County although reputed to be one of the healthiest in the State, has been very sickly for two months past, more so than I ever saw it in Ellis Co. I think that Old Mr Benson is nearly willing to try the *[[illegible]]* again for he has not bettered himself so far as health is concerned, by moving down here.

There has been a great many deaths in the county, & five Doctors living in this place have had their hands full of practice, tho' now it is becoming *[[margin]]* more healthy *[[/margin]]*

Editorial note. Heavy show-through from the reverse interferes with several readings. The place name following "enjoyed in" reads Brushy after image review.

04-080-P01 My own health never was better than it has been since I have been in this place. I still get plenty of work to do. I quit working for Mr Dale about a month ago & have been picking up little jobs round ever since. Were it not so expensive to live here I could make a tolerably fair living. I am now helping build a large Livery Stable, my wages are \$1,50 cts pr day, but after subtracting \$10 pr month for board & washing, the amount is considerably diminished.

There is going to be a very good opening for carpenters here this coming Winter and Spring, and I am somewhat at a loss whether to continue journeywork or turn out undertaker, I think I could get plenty to do either way.

The Christian Church at this place have resolved to build a house of worship as soon as lumber can be procured. It will be 56 ft long & 34 wide and will present a very neat appearance when finished. It has not rained here for so long that I forget when it did rain last, every thing is very much parched up. Corn crops are tolerably good, but Cotton will not make more than a half crop

Editorial note. Image review reads the verb build before "a large Livery Stable"; the earlier proposed surname has been withdrawn. Show-through is visible throughout.

Dear Sister Lizzie. The reason why I have delayed so long in answering your letter is not indifference or want of affection for a dear absent sister, but rather the dazing effects of some of the contents of yours. I thought silence much easier & more prudent than to say things that, to say the least, might do no good. I do not now wish to say anything only to regret, nay lament such a condition of irreligion as portrayed in your letter Surely California & Sodom & Gomorrah are not unlike

A day in the courts of the Lord is surely worth a thousand in such a place & I surely would make haste to get out, were I there, lest I too might forget God. "Be ye also

It causes Christians to absent themselves from the house of the Lord, it weakens faith; it dulls the conscience & makes us slothful in that patient continuance in well doing by which we are to inherit the promises. Dear Mother

Time passes rapidly away, & tonight I find myself writing to you instead of being on my road home, as I had wished I often think that it is not worth while to make anything like definite calculations for the future; as I fail, in them so often. The time of my going home seems to be so uncertain that I shall make no promises about it this time. The principal reason of my delay is, that I have, incurred more expences than I anticipated, & shall have to work longer in consequence. I hoped to see Warren, down here last week, but was disappointed I had however the pleasure of meeting with David Gaslin, at Bonners ferry on Trinity, last monday evening & also on Tuesday morning. I learned from him some of the particulars about home, & amongst the rest, that Jepse & Warren had gone out on

04-094-P01 Brazos. I am very much behind the times, with regard to your plans & prospects up at home; none of you seem to write on that subject, to any definite extent. True, Warren has been writing a little about his trip to the Brazos, but only casually alluded to his second trip in his last letter; & I suppose that had I gone home now I should have had the pleasure of not seeing him or Jepse either

Now when I do come, I would like to find them both at home; so you must write immediately & let me know when they are coming back

I believe this is all in the way of directions &c, at present, so I must try & think of some news to write Our meeting closed last monday night & was I think quite profitable & interesting. Owing to the cold, bad weather the representation of the neighboring Churches was not so full as we expected The Co-operation will, I think be quite effective; about 450 dols were subscribed for evangelizing purposes, & I

Scan 095 04-095

Manuscript | Source 04, PDF page 95

04-095-P01 think, with a little exertion, the amount can be doubled. A committee of 5 managers, was appointed, to employ an evangelist & conduct other business of the co-operation; & we hope that great

good will be accomplished, the ensuing year

Although several preachers were confidently expected to attend the meeting, yet none of them came, & Bro. Kendrick had all the preaching to do. There were *[[6?]]* baptized & one other added to the Church 2 of them were little boys, one, Addison, son of Bro Clark aged about 12 years the other Albert, Bro. K's oldest son about 10 years old. They seemed fully to understand (& I have no doubt did) what they were doing. It was a beautiful & interesting scene to see children, young & comparatively innocent, pressing into the Kingdom, & thus consecrating their lives to the Redeemer Whilst others, old & gray, could sit unmoved, under the appeals of the Gospel, nor be persuaded to devote the little remainder of their 3 score & ten, to the only Cause worth living for, & the only one that promises aught for the future
