Reading this volume

Preparation and review

Prepared for Volney Douglas with AI assistance in September 2026, from visual reading of the supplied scans. Each scan received an initial reading. Version 1.1 adds local OCR processing of all 193 pages containing the original 1,200 uncertainties, and applies selected image-checked corrections. OCR completion is not a complete new visual check; the item ledger records which passages were individually adjudicated. The page inventory identifies the review level. This edition has not received an independent human transcription check or repository approval. It is offered for scholarly review and correction, and does not replace the source images.

Wording and layout

Original wording, spelling, grammar, abbreviations and recoverable punctuation are retained. No silent expansion or modernization is intended. Handwritten capitalization, punctuation and word division sometimes require judgment. Superscripts are lowered to the baseline. Ordinary line wrapping is reflowed; verse lines, addresses and separate text blocks are distinguished. Underlining and decorative features are not systematically encoded. This is a direct reading transcript, not a facsimile or a fully diplomatic edition.

Uncertainty notation

Double square brackets contain editorial intervention. `[[illegible]]` means writing could not be read; an unspecified gap does not imply a word count. Adjacent unreadable spans may be combined. A stated extent, such as `[[illegible: approximately 3 words]]`, is an estimate. `[[word?]]` gives a tentative reading, including tentative phrases. `[[lost: torn edge]]` records writing missing at a damaged edge; `[[obscured: fold]]` identifies an obstruction. Original single brackets remain as written. No missing wording is supplied solely to produce a fluent sentence.

Corrections and separate blocks

`[[deleted: text]]` records readable canceled text; `[[deleted: illegible]]` records an unread cancellation. `[[inserted: text]]` records a significant insertion in its intended position. `[[margin]]` and `[/margin]]` enclose marginal writing. `[[postmark]]` and `[[postage]]` identify postal text. `[[blank]]`, `[[seal]]` and `[[sketch]]` identify useful non-textual features. A `[[separate block: description]]` marker introduces an independently positioned passage. Handwriting or cancellation may itself be uncertain.

Source order and later descriptions

Entries follow the PDFs' scan order. Where the leaves appear out of sequence, the editorial note suggests a reading order without moving the entry. Later identifying slips are transcribed separately; their names, dates and attributions are not silently substituted for manuscript readings. Duplicate scans retain separate entries. Apparent contradictions are recorded rather than reconciled.

References and corrections

A page ID such as 05-025 means source 05, PDF scan page 25, counting the cover as page 1. A block ID such as 05-025-P02 adds the second transcript paragraph or block. These are editorial locators; they

are not manuscript page numbers. Suggested citation: George Douglas Papers annotated transcription, version 1.1, 05-025-P02; corresponding source 05, scan page 25. For a correction, give that locator, the existing wording, a proposed reading, and the image or other evidence supporting it.

I didn't know until a little while ago that one of the family would be going to town to day so I will have to close hurriedly—I expect to have company this winter Aunt Jane and her family (Jennys own mother) expect to move out in a few weeks. her husband and two of her daughters and their families have gone to California Uncle J. has only gone to look at the country if he likes it he will move Aunt J. and the children out They are coming to stay here until he returns or sends for them. So will have two young lady Cousins with us and little one enough to keep music all the time I reckon it will be right hard for us to get used to the noise of Children we have been living so quiet the boys in the field the most of the time leaving Grandma and me alone. I'm very anxious to go to school this winter but will not be able to do so I want Pa to send the little boys if possible for they are getting to be big boys

Cousins C. & L. Walker came out to spend some time with us and were both taken sick at once and stayed very sick for about two weeks They were carried to town as soon as they were able Since then they have been very sick, since they left, there was about a week that I missed but two evenings from visiting the sick Bud J & D have gone to sit up with a sick neighbor tonight. About a month ago I saw something that I never witnessed before—three corpses at one sight all to be laid in one family grave yard Cousin *[[M. Your kind and welcome letters of the 31st of Aug. and 1st of Sept reached me about a week ago I hope you will not think hard of me for not answering it sooner I had an opportunity of doing so but didn't want to write to you & Mollie at the same time as you generally hear from each others letters

It seems that you think from my letters that I am a great complainer indeed I have had great reason to complain it is only by complaining that I get letters you and Annie Roberts have been more punctual than any of my correspondents you are very charitable for keeping my letters on hand so long without answering it as sickness was your excuse I dont think I am unreasonable in my complaints when my correspondents render a good excuse I am always willing to forgive but there is some thing strange about it as much as I complain I have never had any of them to complain of me I conclude it is because I dont deserve it

[[illegible]] much more lively but it has been sickly last week we were all able to be up at one time but we couldn't hold out at that some body had to be sick so Frank and I both took chills I did not but one but have been feeling badly every other day Frank still continues to have them had one last night and has high fever now he has a hard time of it has been sick a great deal this summer I am afraid it will get us in to hard spells of fever Bud Davy has a chill

06-048-P01 Bible through I am afraid he will not do it though I keep encouraging him Although we are in *[[illegible]]* and have nothing like methodist preaching and Methodist doctrines yet I think I have a greater influence over my brothers now than I ever did and I feel the weight of the responsibility of it Oh! may God assist me to set a right example I think Grand Ma *[[tries?]]* hopes to win us all over to the Methodist church she seldom speaks of our difference in belief when she does it is in the kindest manner it is now so dark I can hardly see how to write May be after supper I will tell you something of my evening adventures untill then I will stop writing

06-048-P02 Well it is now nearly bed time and I will resume my writing I said I would tell you something of my evening adventures probably I would have finished this letter this evening but there was a call down stairs for me Mr. — (“my beau”) was there, he asked me to take a ride with *[[inserted: him]]* and Oh! we had a “*[[time of it?]]*!” rode on horse back we went to a persimmon tree not a great way off but the most of the persimmons were green we *[[deleted: did]]* looked for some muscadines we found the “vines” but not the “*[[wines?]]*” it was late enough in the evening to be pleasant riding I was glad to get the chance (but didn't let him know it) I think it will do me good to ride out once in a while I have stayed at home so much with the sick and been sick so much my self Mr. — said he wished very much he could form the acquaintance of some of my young lady friends in Texas I dont remember what reply I made Dont you wish you could form his acquaintance? my kin ones tease me a great deal about him but there is nothing serious between us and not likely to be so *[[illegible]]* he is a very nice young man but he doesn't “suit my style” so much of my nonsense

06-048-P03 Crops are tolerably good here corn is turning out pretty well Cotton better than I expected Bud Davy had a chill today but he and Frank were both up late this evening Pa went to Montgomery *[[deleted: illegible]]* *[[inserted: to day]]* Tuesday and I was very much surprised at not getting a letter or two he expects to go to Lowndes tomorrow & turn over and I will send this by him to mail there I intended writing you another half sheet at odd times but I do not know when there will be any passing to that again

Lizzie please correct all the mistakes you see in my letters and tell me of them and I will do likewise by yours if you wish

Dear Lizzie

Your very welcome letter of the 25th July reached me about two weeks ago I read it while in bed I have been quite sick was in bed nearly a *[[illegible]]* it *[[illegible]]* caused from billiousness being sick when I got your letter and very busy since I got well I hope you will excuse me for not answering it sooner I have only partially regained my strength I am greatly reduced in flesh and very much reduced in color My sickness has served to make me look like an Ala. girl the first morning that I was able to fill my seat at the table some of them said "Cousin Lizzie your sickness shows right smartly on you" I said "Oh! it is only helping to make an Ala. girl of me" it seemed like they were going to *[[inserted: quiz]]* me they all commenced "yes you never have any sickness in Texas" said I "we dont have as many pale faces there as you do here" I was sick two weeks last summer but it didn't take

06-050-P02 *[[separate block: left-hand page; concluding page of this letter]]*

it out I would have liked so much to have gone I dont know whether there is an organized church and regular preaching down there or not if there is I hope we will get to go yet I havnt met up with any one yet who is a member of the Christian Church Pa and I are alone it makes me feel right badly I do wish there were a church in this neighborhood or even if it were not in this neighborhood if it were near enough for us to attend once in a while that would be better than not to go at all we have very good Methodist preaching here as there are none but Methodists living here we dont have series of doctrinal sermons like they do at Liberty

Lizzie do you ever hear anything from Mr. Goodman these days poor man I reckon he will move and move until he settle in his grave and leave his family helpless it is a pity that he cant be contented to stay in one place I feel sorry for him and family Where is Mr. Austin and what is he doing any thing? he is very much related to Mr. goodman Lizzie I have written a letter to Jane and Mary which I hope you will pardon me for sending in yours give it to any of or all the boys and they will get some person to read it for them you can read it if you want to before you give it to them I hardly knew how to begin or how to end

I have heard that he was trying to shine before one of the city girls who is it? I didn't learn her name

I would have enjoyed helping you with your work—a part of it—I didnt use to love to work with honey much but as this is a honey less country I reckon it would be quite pleasant now I dont think I would have enjoyed washing and ironing much I have plenty of that here—ironing I dont bother washing it would have been delightful to be with you scrubbing the floors I always did love that and have helped do it often

06-051-P02 You said you cut Mollie out you also said you had made a great conquest lately I do wish you would call names I am very anxious to know who the “Sympathizer” is and how I would get paid up “Sympathizers” when there was plenty of “old and new wine” on hands. I thought I was about to make a conquest but some body shined brighter than I and he doesnt know me now and I dont care may be I can eclipse some body some of these days when I get to being “pale and interesting” like all the “rest” of the Ala girls

Lizzie last Saturday evening I was so much delighted I thought I was going to get to hear some good preaching Pa heard of a christian Church some twelve or fifteen miles south of this Saturday evening he asked who wanted to go with him to hear a Christian preacher I told him I did he didn't know the way but Mr. Thurgeson told him he would go with him I made arrangements to go but Sunday morning Pa's eyes were hurting him so bad and it looked so much like rain we had to give

Dear Lizzie

I expect some of the family will go to town tomorrow and I will try and scratch you a few lines I would have written before now but I received Mollie's letter about two weeks ago she said you had received my letter I have been looking for the reply I had much rather answer a letter than to write before receiving one I heard last week that there were letters in the office for me but when we sent for them *[[deleted: illegible]]* we couldn't get any So I supposed one of them was from you so I will try and write you something if only enough to bring you in debt to me you will therefore excuse this uninteresting letter for I know I shall fail to interest you as there is no news afloat and but little family news none of the Cousins married yet and not probable that any of them will be soon we are all well at this time except Pa he has had sore eyes very bad but they are improving now I very much feared he would entirely lose one of them at least but now they are so much better I hope he will save both of them When I wrote to Mollie last I was not quite well had two or three chills but broke them up with red pepper

My dear Lizzie

I commence a letter to you tonight, not knowing when I will finish it. I have made several attempts to reply to your letter of the 11th Oct. but there has always been something to prevent my carrying out my design I have been very busy, and then, we have such a large family, that we never have a quiet moment until bed time. and then I do not feel like writing *[[deleted: illegible]]*

I reckon you have heard of the additions to Grandma's household—my Aunt & family at first *[[deleted: the]]* noise of so many children annoyed me, but now I am used to it I reckon I will hardly know what to do with myself when they go away. My Uncle has returned from California highly delighted with every thing—the fruit is the finest he ever saw, the land is the richest and most productive he ever saw and indeed every thing is rather superior to any thing he

06-056-P02 *[[margin]]*

I have not heard of Mr Winnifords marriage I know how to sympathize with you in your loneliness & I reckon you will know how to sympathize with me in mine when all the children leave this place I am getting so cold I will have to quit whether I want to or not & I fear means not to quit excuse me for closing my letter so abruptly I expect you will find a good many mistakes but I know I shall try *[[illegible]]* your letters are always so interesting *[[illegible]]*

Sanfrancisco is far a head of Montgomery in the fashions if not ahead of New York a person has to be rich to move in the first circle there My cousins found it too gay for them, so they moved about 500 five hundred miles south of that to Los angeles, it is a very quiet and flourishing place. Uncle J. says he is very anxious to move his family out there, but is not able, but I think the Earth quakes they have been having out there have shaken his determination more than any thing else, he has bought a home in Greenville, about thirty miles from here, and they will all move from here in a week or two you know I will be lonesome I have had three room mates all the time, and to be left alone all at once I will feel it very sensibly, but I will have plenty to keep me busy and I expect the time will pass very rapidly Lizzie I was so glad to get your letter I had felt a good deal like scolding but you are so good to acknowledge your wrong and make such a good promise that I will not quarrel with

06-057-P02 you this time especially as I have been so slow about answering it I must say though that I dont think your excuse for not writing was a very good one, viz, that I was enjoying my self so well you didn't think you could increase my enjoyment I never expect to enjoy my self so much that it would not be increased by a letter from home. Cousin Mary and I have had a good deal of pleasure, riding horse back since the working season has been over, that is generally our resort for pleasure We have been having a good many “beaus” since Cousin M. came Last Sunday was a week, we had four at once, and such a time as we did have one of them would say “yes” or “no” to every thing one said, and one would only agree with us in every thing we said, and one would try to tease us about every thing we said, and the other one seemed to want to say every thing he knew, (which seemed to be very little) I felt like I would rather they had stayed at home and let me spend the evening alone last saturday the one that loved to tease so well *[[deleted: illegible]]* and really the choicest of the four came

06-063-P01 I have a horrible tale to narrate this week tis the murder of Mrs Claunch by her daughter. Mrs C is a sister to Mr *[[Simons?]]* *[[was here in the spring?]]* *[[illegible]]* creek. It seems that they quarreled a few days before when the girl run away and went to *[[illegible]]* near Fathers, but he got mad and went back home. The children had all gone out to the water melon patch except this girl *[[inserted: illegible]]* aged 15 years and small child aged 3 year. Her husband had gone to hunt cattle. The evidence is *[[illegible]]* there was *[[illegible]]* a severe struggle between them, *[[illegible]]* was that the girl showed no *[[illegible]]* of bruises. The girls evidence comes first. She says she was in the *[[illegible]]* house, and heard her Mother scream *[[illegible]]* a *[[deleted: illegible]]* *[[illegible]]* run in and *[[illegible]]* her Mother dead *[[illegible]]* run off and stood by the *[[illegible]]* while *[[illegible]]*. She did not notice which *[[inserted: way]]* he went. Mrs Douglas was the first one to get there after it happened, and *[[illegible]]* poor crying little child & asked it who kilt her Mother – *[[illegible]]* the child said it was Mollie. Search was made and the girls dress was found concealed, all bloody. *[[illegible]]* bail. three days

was given her to give *[[five?]]* hundred dollars bond she could not so her *[[illegible]]* went to *[[Wax?]]* jail. There was a stick found *[[illegible]]* in the *[[illegible]]* which was used, from appearances. I have not heard *[[illegible]]* in her favor, only as her Mother lay in the coffin she went and *[[illegible]]* wept a great deal if she was only alive she would never disobey her again. If she is really guilty her repentance came to late to save her the murderers fate in this world

Editorial note. A very pale, incomplete account of an alleged killing. Names, the witness account, and much of the lower half are not securely legible. This is a writer's report; the transcript does not establish the allegation as fact. A clearer scan or the physical original is needed to resolve the many gaps. Image review September 2026. Whole-line review also questions previously unbracketed wording around the first location clause. The remaining narrative requires further image or human review; this revision does not certify all surrounding words.

06-066-P01 have any doubt but what they will take ours. It is now currently reported and believed, that the wheat which the Farmers carried in before the tythe tax, was due, in order that the Soldiers might get some flour has been sold by speculators. They say they would manage it this way; they would *[[store?]]* it *[[illegible]]* where a board would be appointed to examine it. They would condemn it as inferior flour, and it would be sold, they would then sell it at an enormous price and pocket the proceeds. There was a man here the other day from Nacochitoches who says this is so, and that Magruder is at the head of it. One thing I know, that a great deal of wheat has been ground up and taken off; and I reckon you could testify, that the Soldiers dont get much of it. What if old Magruder orders you away from Sabine about the time Joda gets back, and takes all of your flour and bacon away from you? We are going to send you a sack of flour a piece and a good supply of fat bacon which I hope will serve to make your fish a little more savory.

06-069-P01 Brushy April 21st 1865
Dear George:

06-069-P02 We were somewhat surprised last tuesday evening — the 18th by the arrival of Joda; we were all truly glad to see him you may be sure. I was a little disappointed in not getting a letter from you, but suppose you have written by mail since your return from Velasco. I am anxious to hear something about Dock, and the something you would tell of next time which you spoke of in yours of the 5th inst. has accomplished its purpose — excited my curiosity. The thread you sent by J. M. was very acceptable, it will save me many a turn of my “Piano.” The pins — although I had plenty you left before — do not come amiss. I have a little speculation in my head, which, if I was sure it would turn out right, I would write you several little articles to buy that you might keep your eyes open for such bargains: but, as I am not sure of accomplishing it, I will just tell you my plan. It is to send down some flour by Joda that Laura and I have. There is only six hundred pounds of it, and Joda says if he gets Transportation at all, he will take it. But he does not know yet whether he will get any thing to transport, untill he hears from Mr Bell. If he takes a waggon we will try to send you a little something to sweeten your tooth. I would like for you to look around a little, and see if a side saddle could be got in Houston. Laura is very anxious to get one, and if the flour speculation succeeds she might stand a chance to get one, as Joda says waggons are continually passing from Houston to Dallas

06-070-P01 I recd a letter from Laura this evening. she seems to be very well satisfied in her new situation. says she has from 16 to 19 schollars, with a prospect for more. I suppose it is better than to be carding and spinning but take me from friends and Home, and place me among strangers, and I would feel that I was left to pine neglected, and to “perish in forgetfulness” — to be poetical. Cousin Mollie has just returned from school and is going to stay all night with me so I must quit.

06-070-P02 Saturday evening 22nd Today has been bright and clear, quite an uncommon thing; the wind has been from the north since day before Yesterday, and last night we had frost enough to kill most of our beans, though I do not think the fruit is injured. Cousin M. amused me last night by relating some of her school exploits, and altogether the time was passed off quite pleasantly. She is going to Liberty; A mrs. Bishop is teaching there now. She is from Dallas, and some rather quiter, I mean — could teach almost every thing the Dead Languages included. But May says it is with difficulty she can find the answers in old Kirkham, so I suppose the Living have become Dead to her. Some foul play has been carried on, up here of late. Several horses have been stolen, and two Stiles boys who lived over in the neck and were deserters, were suspected. A company of men got after them, and caught one of them — the Youngest; he acknowledged to stealing and said his brother was concerned in it. They hung him on the same limb Stanley was hung on — so we have heard. They tell various tales about the other. one is that they shot him and broke his arm but did not take him. Another, that they took him, and hated to shoot him while a prisoner, so they guarded him loosely so he would try to make his escape, which he did. and then they shot him and broke his arm but he made his escape

Editorial note. The account of violence explicitly includes hearsay (“so we have heard”) and alternative stories. These are the writer’s reports; no independent verification is implied. Text continues on scan page 71.

06-071-P01 Last Sunday morning a party of 8 or 10 men passed Mrs Campbells — aunt *[[Bats?]]* house — with one of the Stilesees. Jim Floyd was one of the party. a young man who was at Mrs Campbells asked Floyd what they were going to do with him. He replied, they were going to take the left hand road with him. The same day Jennie Bell saw a party enter the big thicket at their wood yard. They either took him in there and hung him, or went in to hunt him, after he made his escape. One thing is very certain to my mind, that is if they ever captured him, he never made his escape. Perhaps they merited death, but I dread the consequences of this mob law. We know not, but this is the beginning of terrible times. I hate the thought that Brushy *[[deleted: should]]* should be the place of the beginning of such things. I would feel a great deal better if I knew that man was not hanging over in that thicket.

06-072-P01 Henry and Ellen went up last wednesday, so we are once more by our selves. Henry helped Father to sow his grass seed before he went away. They have got the stove set up, but the weather is pretty cool now to be without a fire place. They got the top of the well, a good many old shoes and large rocks and a Young possum out of the well.

06-072-P02 Tomorrow, brother Methodist Jones, will hold forth at Liberty. I will try to attend as I have not heard a discourse since the 1st of March.

06-072-P03 Joda says tell you he is at home safe, and a plowing. We will try to keep him busy while he is at home. There are so many of us here now that we are almost obliged to have some more room. We recd two letters from *[[Fran?]]*, last dated 26th of March. He is very anxious to come home, but thinks it uncertain about getting to come. There is one thing I would like very much to have, a pair of Scissors if you can get them cheap, but do not inconvenience yourself about them.

06-074-P01 old nag, that used to be has fattened up, and looks like a young filly; She can pace like a streak, and is I might say the “star nag of the neighborhood”. Jeppe bought Laura’s pony when he went to San Antonio I consider him a poor horse he can walk pretty well when he is coming towards home but going from it, as May says about Joe, you have to work your passage. I wrote to you in my last about where we get water, Our well would be very good now if it was cleaned out, the rotten curbing spoils the taste. Our wheat looks fine if it was a little thicker it would be better.

06-074-P02 You invite criticism. Your composition I well might enjoy, if *[[deleted: illegible]]* were not expressly forbidden, but I would recommend a little more painstaking in your writing; so that the words can be more easily read. I know you know how to spell, but you sometimes leave out letters, which causes *[[deleted: them]]* *[[inserted: words]]* to be spelt wrong. I know you can soon remedy this, by a little carefulness in writing.

06-074-P03 I do not wish your letters shorter, but your writing might be a little compact, that is not stretched over so much paper, with out it was not such thick heavy paper, for your letters are sometimes marked “Due ten cents”. I must quit writing as it is getting late, and I expect you will be tired time you get all of this read.

06-075-P02 judgement for that, but I think you ought to write a good letter to Sis, to make amends for the, almost, rude word you sent her in Lizzies letter. You say “Sis sends her respects to me, ask her what I must do with them.” Now study that over a little and see, if it sound altogether according to Chesterfield. Now you might have sent that word to Lizzie, and she would have thought nothing of it, but I take Sis to be of a different disposition, and I think — not from any thing I have heard, but from what I know of her nature, that she will not like it so well. As for me recommending a good correspondent, I’m incompetent for the task, as I have never seen any thing from the pen of any young lady of this section; and as for knowing any thing about their mental acquirements, you are as well posted on that score as myself. I recon you could find out their capacities for writing, by writing to them, and “see if you dont get letters.”

06-075-P03 You wish to know something about our nag; we bought her from Mr Rutherford, father of the one that married Mary Burkhead; If you remember, Mr Rutherford bought out Theodore Wylies; and by the by he has a daughter just “Sweet Sixteen” Miss Mattie, so you see we have another young lady in our neighborhood. On account of water being so scarce, *[[illegible]]* came home *[[illegible]]* Father with *[[illegible]]* Joda to stay *[[illegible]]* probably he will not go back this summer. *[[illegible]]* very uncertain *[[illegible]]* very gloomy. *[[illegible]]* some water holes on the river, they have none at all in their wells. *[[illegible]]* of that section *[[illegible]]* Ellen *[[illegible]]* wants to *[[sell?]]* out, but none right off. In all probability they will move to this neighborhood before this year is out. *[[illegible]]* are out of *[[illegible]]* service. They only have to *[[illegible]]* ten days out of every forty. He thinks if he *[[illegible]]* Ellen he will be exempt on account of *[[illegible]]* militia. I hope it may be the case. Some of their latest *[[recruits?]]* at *[[Tyler?]]*, are now deserting *[[illegible]]* Mr White and Mr *[[illegible]]*. The story is that Mr White *[[illegible]]* settled on *[[illegible]]* to take him, but when they came up to him Mrs White presented a six shooter and told them if they advanced she would shoot them. so they did not take Mr White. Hurrah! for some of the women dont you say so. As the night is *[[late?]]* I will quit and go to *[[napping?]]* *[[illegible]]* very strange weather for this time of year cool dry and windy.

06-087-P01 *[[Wednesday?]]* night 15th This beautiful day has been passed very busily and pleasantly by me, we have been putting in a piece of cloth, and this evening *[[Colburn?]]* and Henry R. came over. *[[Colburn?]]* came to stay all night to go a turkey hunting with Joda in the morning, but was disappointed as Joda went to Dallas to day to see Watts having failed to see him at Ingeville as he went to Johnson; but they have let their plans to have a good hunt while Joda stays. You ought to be here to hear the turkeys gobble of a morning and see some of our beautiful pet deer. They are very gentle, since you have ceased to torment them. We also have another pet up in these western thickets, which *[[illegible]]* we suppose to be a panther. There are a kind of pets I would rather would be a little more distant. On the subject of John Turneys, the people of *[[Tennessee?]]* are anxious that he shall get a six mule team if he can, if not two four mule teams; They seem anxious to send plenty up there to the Co.

06-087-P02 Yours of March 30th we recd last Sunday. You say dont get too fast on the peace questions I will not, for I never was as sanguine as Father and *[[Louisa?]]* we all told them they were too fast. But I always have and always will think there is something wrong about this cotton trade. You have seen before this the account of the threatened invasion of Tex. from Ark. of twelve thousand men with a train of four hundred waggons. I rather reckon you have not seen the accounts of the wise disposal Genl McCullough has made of his men of late; or such items as these seldom go through the Telegraph. He appointed a day for them all to rendezvous at a certain place. Some of them being at home on furlough two hundred of them had arrived when they were surrounded by a Regmt and taken prisoners and then sent off to their respective commands where they had originally belonged, or to their enrolling officers. just turned out as I always expected it. un-fortunately a great many had not got there when the two hundred were captured. *[[deleted: among them William Duff and his]]* nephews Jno Smith who have returned to this section and report the *[[illegible]]*. They have joined Co. with *[[illegible]]*. This movement on the part of McCullough has rendered these men desperate. Rome has now gone to Wax. with a waggon master who

he is acquainted with and who he thinks is his best friend, to try to get to drive a team from San Antonio to Eagle Pass. they say the Govt wants men who will bring their own teams. It will suit with R. if he can get into it but I cant help but think it is a trick to get him into the Service, though it may turn out that my fears are all groundless.

Editorial note. The weekday is tentative; it has not been changed to agree with the preceding page's Thursday heading. Several personal names remain unresolved. The writer reports McCullough's actions without independent verification.

06-089-P01 Brushy Nov. 13th 1864
Dear George

06-089-P02 You will have to forgive my delay, my excuse is busy times. This morning Lou and I went to meeting to Liberty to hear Mrs Justins funeral preached; it was to have been preached at the Colony last Sunday, but Mr Haynes had been sick and was not able to preach. To day the house was cramed jamed and running over. A goodmany of the Colony were up and a greatmany from about Shilo. Five preachers: Haynes, Justin, Maley, White, and Berry. Mr Haynes gave us a long tedious discourse from the last clause of the 4th vs. of the 11th ch. Hebrews. He spoke fully two hours, and a good portion of his sermon was about the depreciation of the currency (I am not talking about the "old" and "new issue") but the money itself. The "old issue" was fully represented to day; and judging from the display have no idea of being repudiated soon. Em. and Liz. were there I just got to speak to them, had no time to talk. I wish you had been there to see all of the people. Times are about as they were when you were here; a good deal of work to do and not much time to visit. We assisted aunt Bettie in getting ready to move, she did not get her thread ready for me to weave, but got some jeans from Ellen, and we made the little boys coats. She got off on the morning of the 10th

06-090-P01 She took Betsy and chickens, left the spinnack and what few cows she had. I think *[[her will intend?]]* coming back to attend to them. Father bought a sow and five shoats from her for ten dollars specie, so I reckon we are safe in the meat line for another year. — that is if we can get corn raised to feed them on. Father has reserved twenty acres for *[[corn?]]* and hungarian. Laura wrote to you, Gibson was to fix the fence; she was mistaken that was not in the bargain; he was just to raise the wheat, cut it and thrash it and put a fourth in the granary. How the old fence is ever to be fixed up is more than I can tell but I hope it will all come out right. The well holds out finely about a dozen mules and horses are watered out of it twice and three times a day. It gets down pretty low, but hardly gets muddy, and by the next time is as full as ever. If I had any hopes of the war ending soon I would feel so much better but from the tone of the papers, we need not look for peace in four more years. Old Abe is elected in all probability and *[[Childsy?]]* thinks it is best for if Mc. Clelland is elected says he, propositions will be made which some of the States will accept, and then we are ruined. So it seems he is for four more years warfare.

06-090-P02 The wind was blowing cold from the north on last monday evening we were all sitting round the fire, when we heard *[[coo a night owl?]]* we looked out and sure enough there she was. *[[Childsy?]]* was nearly frozen, but a warm fire soon set him to talking, and he and Mr Grounds (a soldier that came with him) kept us laughing nearly all the time they were here.

Editorial note. The wording before “coming back” and the night-owl phrase remain tentative after review. The correspondent’s name appears to read Childsy; comparison with the physical original would help resolve its spelling.

06-091-P01 I was right glad to see *[[Childsy?]]*, you and Joda had talked so much about him, that he seemed like an old acquaintance. I never saw any person more anxious to get home than he. I suppose Joda must have drawn you some shirts, by you sending that one home, draw every thing you can, for that is all the pay you can get. The shoes you sent Mr Grounds told us would not come up, he says they have been recalled.

06-091-P02 Henry and Ellen started home on the 8th, all well and hearty. we have not heard from Warren but look for him and Beck down. Griffin or somebody else must have a particular spite at Warren. If he did not get his furlough lengthened, his stay at home will be short. We recd a letter from Dock *[[Wyrman?]]* not long since, dated 10th Oct. He had just got Fathers letter and the socks we sent by Ed Dickson. Said he was very glad to get them as he needed them. He belongs to Co. G. Bates’ Reg which is stationed at Velasco, he says he expects they will remain there this winter. He winds up his letter by saying “I am a peace man, let it come as it may.” Ed Dickson is now at Tyler guarding prisoners. He deserves some credit for taking the trouble to send the socks over to Dock. Many a soldier, these scarce times would have kept them. *[[Rome?]]* it seems has a notion of hanging on to the service. The last letter Sister got from him he told her to buy two more waggons (a horse and an ox waggon) and come to him in the spring. Sister is mightily pleased, she has been wanting to leave here a long time. She thinks she can rent a house in San Antonio and send the children to school

I am perfectly furious this evening; at some future time I will let you know what it is about. If I can collect my senses sufficiently, I will try and fill this page. Jeppe got here yesterday he will only stay down a few days, as he is going to San Antonio with a load of wool as soon as he returns. Henry and Ellen *[[inserted: had]]* got back safe. Warren not got down; he can get no conveyance to bring Beck down while he stays; he wrote he would be here on the 10th of Dec. on his way back to Sabine. I suppose he got his furlough lengthened. On last monday Mr. Marshalls family *[[deleted: was]]* rolled in from Ark. composed of two sons and six daughters. They are greatly dissatisfied down on the old man for marrying, and wish they were back in Ark. they say they had plenty there of every thing and a good house to live in. The jayHawkers were the only ones that pestered them much. They say the feds treated them better than our folks. The old man has rented Lous house for them, he is going to build a chimney in it before they move there.

06-092-P02 As an other item of news I will tell you about *[[Lidda?]]* Bakers nose. Dr. Mc. *[[Curdy?]]* is making her a new one; he made a gold nose and then cut a piece of skin out of her forehead and twisted it around and covered the gold. when it knits at the sides he is going to cut it loose at the top and straighten it out: He says he is going to make her a lip when her nose gets well and then take her for pay. Brother George:

06-094-P02 Yours of the 7th and 8th came to hand this evening, and although short, gave us great satisfaction. When the Sundays mail fails to bring us any letters, as it did last Sunday, we are always uneasy until we do hear from you. Brushy has been in the receipt of various news to day; Laura got a letter from Fayette, M Orr one from Fayette, Mary and I one apiece from Jim.

06-094-P03 They have come safely through all the fights except the slight wound Jim rec. at Chickamauga. They both say they are tired of it. Jim says "he can stand the fatigue and hardships all very well, till it comes to the fighting fighting, and then when he sees his comrades falling around him, it is all he can do to persuade himself not to run." Tole Hamilton fell at Ringold, in the retreat. he was shot through the breast, and only lived a few minutes. Poor fellow he has gone like many another from home and kindred, never more to return. He leaves a widow and child. The boys write home that two Goodloes (Aquilla's sons) have deserted. And whose name do you expect to hear *[[illegible]]*? Tell no other than Squire. but uncle *[[Givans?]]* says this must *[[illegible]]* out of the family I know not why unless his boys wrote it home is the reason. But Squire is safe over the Border, where a many another poor Dixie boy wishes he was I expect. But Squire is not the only one of your acquaintance. The boys say that Charly Brown has written to them, that Will is safe with his kindred in a Northern Clime, hearty and well. Now dont you reckon that Will G. and Will Brown are having a happy time? Mary G. is perfectly satisfied about Billy. From the tone of Jodas letter, he seems to think your Batt. is disgraced worse than any other body of men in the Army, but he is behind the times, and had as well quit his noise. Tom *[[Warthen?]]* writes home that they have to keep a guard round Gurleys reg. to keep them from deserting. We hear there all of Murrays Texas Co. have left but Sixteen. I just give that at what it is worth. I am mistaken about Will G. being with

I could *[[illegible]]* particulars for that man, although we have no money for him to want. He tells of deeds he has committed that would make any honest person

She says ask you what you did with all that love we sent you by *[[Warneys?]]* letter and if you are willing for that exchange. Laura wishes to know if you completed “We are growing old” and “O would I were a child again” they are beautiful verses. I never once told you a word about the baby. She is a very pretty, blue eyed fair skinned little May. I wish you could see her. Ellen and Emmie have grown a great deal since you left. Ellen can spin pretty well on two spindles. Enclosed I send you part of Fayette’s letter, the other part you’ll find in Jodas. Fayette is as full of fun as ever. Affectionately Lizzie

06-097-P01 No. 13.
Brushy, June 28th 1864.
Dear Brother,

06-097-P02 I have sorrowful news to tell you this morning. Uncle Alfred is dead. Mr Orr recd a letter from Henry yesterday, confirming what we had heard before. He died late Sunday evening the 5th of this month, just 18 days after he was wounded. Poor Aunt Bettie is allmost crushed beneath the blow. As soon as she heard it was really true, she fainted away, and they thought for a while she would never revive again. Ever since, she has had cramping spells, and sometimes loses her breath. I have just returned from there, Mary Orr and I staid with her last night. I fear she will have a severe spell of sickness first — if she ever does get over it.

06-097-P03 He writes that the Drs made a good examination of his wound just a few days before he died, (which they had not been permitted to do previously, on account of the swelling) and discovered that the bone had been considerably fractured, just below the knee cap, and upon pressing it a good deal of matter run out with the oil of the knee cap.

So you see it was a good deal worse, than was at first thought. Poor Uncle Alf. when he told Lou and me goodbye he said “I just want to get into one big fight, that will do me.” But now he sleeps between two comrades in arms — John Morgan, and *[[deleted: illegible]]* *[[inserted: Docter]]* Gardner. Bob *[[Head?]]* and his lady called upon us yesterday morning; he is rapidly recovering from his wound and will start to his command next week. He says Uncle A. was a good soldier — he watched him during the fight and he appeared to be the coolest man in the Co. Henry writes that cousin Gran is able to walk some, is in fine spirits, and will be able to start home in a few days. Bob has drawn a furlough and will come with Gran. Thos. Harper got in the other day, he says Parsons men have been ordered to Houston. By the by Who is Coz G’s correspondent.

06-098-P02 Well the Methodists are having another grand time at Liberty; their meeting commenced last Thursday night, and will probably end to night (tuesday). I have not attended except Sunday, there was so many people there that day, they had to move the seats out under the trees. I did not know half the people that were there. Parson Sansom preached in the morning, *[[Coltr V.?]]* in the evening. Had a splendid dinner on the ground and pretty girls were plenty, but thats no news to you.

06-098-P03 *[[separate block: right-hand page]]*

“But as in the days of Noah they shall marry and be given in marriage” Last Sunday night Old Mrs *[[Liz?]]* Hawkins and Old Mr Love were united in the bonds of matrimony; and not long since, Old man Durst and a widow Smith of Johnson Co; It is reported she has a hundred negroes. All I can say is *[[illegible]]* her. Since the old people have gone to marrying I suppose the young folks will think they have full licence now. I saw Sweet Sunday, it is reported that Jim has gone to the Feds, but I hardly think he would marry and go right straight off and leave his wife. I recd two letters from Fayette yesterday which Henry had recd and sent home. He appears to be in fine spirits says all the men over there are and that the most of them have reenlisted for 50 years or during the war. He says Jim is as lazy as he can be, just lolls around camp, and he accuses him sometimes of being in love, but cant tell how it is as he never gets any letters and he is sure he never sees any of the girls, unless it is in his sleep.

06-098-P04 It is the same old joker. He said he had just recd your letter of 24 pages foolscap giving him an acct of yourself since you entered the service; that you had used up Walker and Websters besides using various

Little Mary Jeffers is the only one that has professed yet that I have heard of, though they have a good many mourners. Big presbyterian meeting commences at the Colony to morrow. John Andrews and Adolphus are at home now got here home to cut wheat. You would hardly know Delphus he is so fat and hearty. We recd yours of the 9th the other day, also the little book to Ellen. Dear Brother:

06-101-P02 Mr. Rockett came in this morning, and handed Me a roll of paper which I suppose you must have sent, though directed by Joda. *[[W?]]* Jones passed by here yesterday though I didn't see him. Some of the children did. He took dinner with Henry, he had rode it in eight and a half day, he said he would have come back and seen me but was in such a hurry to get home. I am very thankfull for the paper as we have none but scraps nor wont have till Mr. *[[illegible]]* gets back, or sends some, which he is to do. After they get back to San Antonio they have the promise of hauling to Matamoras, which if they get they will *[[illegible]]* sight in Ellis soon. Miss Beckett lives in this neighbourhood yet I believe she is the only other that is here. The rest are scattered (as it were) to the four winds. We are having rather a wet week this week, and (for the consequence) plenty of fleas. They are about as thick as flies down at Sabine, though we have the advantage of a convenient leaf carpet which is a great help. The children are beginning to come in the house and are shaking the floor so I will have to stop. 06-103-P01 Ann & Cynthia have just passed by going from aunt Catherines and say Warren Payne is dying he has been sick for some time. Lizzie and I will go up to sit up to night.

06-103-P02 Warren Payne is the youngest child of Preston Payne whom aunt *[[inserted: Catherine]]* took when he was only nine days old and has kept him ever since. Had he have lived seven more days he would be seventeen months old. His disease was chronic diarrhea. Lynn Norman is at home on furlough; he has been out on the RioGrande for some months but is on his way to La. He has to report at Sabinetown on the eighth of Sept. He says the Reg. to which Eppa belongs has been ordered to Arizona. Another wildgoose chase like that of Sibleys Brigade. Gran Jetter is still at home. I dont think he is in much of a hurry to return to his command as he has been digging a well for two or three weeks past and intends to finish dig and *[[wole?]]* it with white rock before he thinks about fixing to go back. His furlough has been out a long time and he says when he is in the army all he thinks about is how to manage to get another. His patriotism has cooled down several degrees below zero. Mr. Chappell and his son Bob were in fifty miles of their home the last that has been heard of them. They are now violent secesh, but doubtless have got home and taken the oath to the feds long ago to keep out of the service in Dixie. Miss Ada Chappell is living at Gran Jettons and she is so patriotic that she says she had rather her father and brothers would all be killed than for this confederacy to go down. but she knows they are all out of danger now for Dock deserted and went home from La. last fall you can now form some idea of what kind of folks they are.

They all look about the same old Seven and six except Joe W. he looks badly from a recent spell of sickness.

06-104-P02 Tom Witherspoon is now at home with a hole in his head large enough to put your thumb in, the covering of his brain can be seen. Though his mind is uninjured. I suppose you were so badly disappointed is the reason you said nothing about drawing for a furlough. If it is number 13. I want to know something about when your time will come to get off. I do not understand the regulations. Now that Walker is in command, perhaps more men will be furloughed. The paper said Lt. Allen was shot on the 5th but as you said nothing about it in yours of the 7th I suppose it is not true. Mother and Sue have gone to Mr *[[Grames?]]* Father to Mr Grounds to take some socks to send to Cousin Dock by Ed. Laura did not come home so I am here by myself, except Ruth, sisters black girl whom we have hired for two or three months. 06-106-P02 Saturday evening has again arrived and brought the time for me to write. I have sad news to communicate this time; Jeppe is again a widower. Gail died last Saturday (23d). Mother got home yesterday and brought the little baby with her. It is the poorest least one I ever saw, though now it fattens up I think it will be very pretty. Mother says Jeppe told her he would give it to Sue and me, poor little orphan, we will all do all we can for it. It seems that Jeppe is fated to a life of trouble. Dear Brother

06-109-P02 I will again attempt to write. Last thursday I went up to the Office, and got yours of 10th ult. also the knife you sent by Mr. Collins, he passed a little while before I got to the office. I was sorry I did not get to see him. On yesterday I recd yours of 21st August; Lou, Jodas of the 25 which is the latest from you. I also received one from Frances Blair, who by the way is as good at letter writing, as conversation, and if you have ever been in her company much you know she is interesting. They were all well. Thomas has not yet gone into the service.

06-109-P03 Jeppe arrived this evening. He brings no news, left all well on Hack Creek though there is a good deal of sickness in the neighbourhood. Henry has had a gooddeal of practice of late; he has lost two patients, one of them was Daniel H. Willbanks, Warren ~~[[deleted: knows]]~~ *[[inserted: knew]]* him. Sallie Willbanks married Dr. Orr, and they have parted.

06-109-P04 Jeppe gathered his corn before he came down, made a hundred and thirty bushels. There has been several very sudden deaths in this section of late. Nancy Hancock, (Stout that was) was taken sick on Sunday and died on the next wednesday. They say after she died her eyes popped out of her head. While they were going to bury her, her little brother was taken suddenly, and died ~~[[deleted: illegible]]~~ in two hours he had had a chill or two before, but got up and helped to catch a chicken that morning and ate a hearty breakfast. It is a strange disease. They did not complain of any pain.

06-110-P01 Mr. Telly — Nancy ~~[[Culphers?]]~~ husband — has been in bad health for a long time: on last Sunday morning a small red spot made its appearance on his arm, it spread rapidly and his arm swelled all over, mortification took place and he died on monday. I have heard of other sudden deaths, it is all thought to be the same disease, in different forms. J. Bell is now suffering severely from his wound. His shoulder is greatly swelled, and there is a place six inches long, in which he says he can feel the ball working back and forth. They think the ball will have to be cut out, but the Dr. thinks he had better not do it till the weather gets cooler.

06-110-P02 Wednesday evening, 7th At 10 oclock this morning, Mr. L. Evans called on us, and left the books you sent, also the letter from Joda. You better reckon we were glad to see some one from the boys. He came riding up through the rain, which had been falling nearly all morning; he was in such a hurry he did not stay more than fifteen minutes, we wanted him to stay for dinner but he was in such a hurry he did not want to ~~[[deleted: illegible]]~~ talk about it. I reckon thats the way they all are when they get pretty

close home. He will get home to night, says he left Sabine on the 31st thats only seven days on the road. Dont you call that pretty good traveling.

06-110-P03 Mr Evans says your time will not come before Feb. he also says you could get leave of absence the same as he did. Now you know more about the matter than I do; but had you *[[inserted: not]]* better not come now, than wait till Feb, when perhaps the furlough business will all be stopped, or you sent off to La. or some where else? Thirty days is a short time for a man to come so far, he would not have long to stay at home but a short time is better than none. I am glad old Magruder is gone.

06-111-P01 I will now have to tell you something more about the meetings which seem to be the most engrossing events of the day up this way. Every one preaches his own doctrine with all his might, consequently discussion *[[inserted: is]]* *[[deleted: illegible]]* rife. You wondered in one of yours, whether the good feeling which seemed to exist between different parties would continue to exist. I will give you a few items and you can draw your own conclusions: At our meeting in August it was announced that at the next appointment the meeting would be protracted, several eminent preachers were expected, and of course good preaching anticipated. Now this was not exactly in accordance with the feelings of our Methodist friends, so after studying on it awhile they appointed a meeting in Mr. *[[Batakers?]]* neighborhood embracing the same time! Not exactly as warm towards us as of yore, think you? The saying of Parson Hill, "now if me and my neighbor dont agree I just let him alone, dont go about him," had sunk deep in their hearts, so union meetings were forgotten. Our meeting commenced at the appointed time, thursday night before the 1st Sunday. the congregations were small untill Sunday when, notwithstanding their efforts at "hedging" there were so many there, they had to move the seats out and preach under the grove. It is only the methodists that are so hostile. the presbyterians are not so afraid of the truth.

06-111-P02 Bro Jones was *[[inserted: the]]* only preacher from a distance, he did most of the preaching. By request Parson Austin addressed the people Sunday evening, *[[inserted: he preached]]* from the words "It is finished". He made a very good talk. There were no conversions, but four united with the church — Milton Rawlins, his wife, Sarah Selby, and Lizzie *[[Burnard?]]*. The meeting closed on monday night at which time Bro Jones preached one of the best sermons I ever heard on the unity of the church. The house was full and I hope a good

better let them alone". This is an odd expression. I dont know why it was done, but an other protracted meeting was appointed for the *[[deleted: illegible]]* beginning friday night before the first Sunday in Oct. Bro Goodman told us several preachers would be there we had never heard of before. How I wish you could be with us at that time. I know you would enjoy yourself.

06-112-P02 Parson Austin was *[[deleted: illegible]]* waiting on Lis. Gibbs last Sunday, and *[[gave?]]* Saturday night. Dont you think that is right early? his wife has only been dead a little over two weeks. Father has just returned from the widow Mc Knights; he went down to get an auger to bore for water. He brings two items of news; one is that Fayett and Jim have either been taken prisoners or killed. A letter has been recd stating the whole Brigade was captured. F. and J. have a hard time of it. The other item is, that Mary Morgan is to be married to night to Mr. *[[deleted: illegible]]* Phipp. And so they go. You wish to know if I would not like to partake of your cobbler. It would be a treat indeed. I have only tasted one this year. But I would gladly take supper with you some night, if it consisted of bread and water only. I saw Walk Hatter the other day, he looks about as he used to. He was a prisoner four months, and says he fared well while in N's hands. He says the Soldiers he talked with sayd the would fight us ten years but what they would whip us; that old Abe gave them plenty to eat and wear, and that is all they care for. You see I can write you long letters now; I have

Though I am sorry to hear through Joda that you have been *[[illegible]]* in the Reg. You seemed to be getting along so well in the *[[illegible]]* I almost wished you could remain there. You seem to think P. H's chance of winning a fair one was rather bad, and that he had to marry while the field was clear. I dont know how *[[illegible]]* I can hear the young gents at *[[illegible]]* think they can get “*[[obscured: ink blot]]* and choice”. Editorial note. Closing page of the letter begun on scan page 114. The opening paragraph is comparatively clear; much of the Saturday continuation is extremely faded. This is a partial transcription. Adjacent unread spans have not been assigned word counts. A new photograph of this leaf or consultation of the physical original is a priority. Image review September 2026. Whole-line inspection raises doubts about the surrounding sentence framework in P02, including the earlier literary discourse wording. P02 and P03 remain provisional as whole passages; the marked gaps are not the only potential errors.
